

**Amendment to the Specification**

Pursuant to 37 CFR§1.121(b)(1)(i): Applicant requests that lines 13-15, page 5, of the specification be replaced with the foregoing paragraph. The term “morpholin-1-yl” within the specified paragraph is being replaced with “morpholin-4-yl”. Applicant submits that the use of “-1-yl” rather than “-4-yl” in the morpholin moiety is an obvious typographical error, as the oxygen atom of the heterocyclic ring can only have 2 not 3 bonds. Therefore, Applicant requests that the specification on page 5, lines 13-15, be appropriately amended.

§1.121(b)(1)(ii). [Page 5, Lines 13-15]

More preferably, R<sup>4</sup> is (C<sub>1</sub>-C<sub>8</sub>)alkyl, halo-substituted (C<sub>1</sub>-C<sub>8</sub>) alkyl (preferably, fluoro-substituted (C<sub>1</sub>-C<sub>8</sub>)alkyl, cyclopentyl, cyclohexyl, piperidin-1-yl, pyrrolidin-1-yl, or morpholin-4-yl ~~morpholin-1-yl~~.

§1.121(b)(1)(iii) [Page 5, Lines 13-15]

More preferably, R<sup>4</sup> is (C<sub>1</sub>-C<sub>8</sub>)alkyl, halo-substituted (C<sub>1</sub>-C<sub>8</sub>) alkyl (preferably, fluoro-substituted (C<sub>1</sub>-C<sub>8</sub>)alkyl, cyclopentyl, cyclohexyl, piperidin-1-yl, pyrrolidin-1-yl, or morpholin-4-yl.

§1.121(b)(1)(iv) [Page 5, Lines 13-15]

Applicant respectfully requests the deletion of the following paragraph on page 5 (lines 13-15) of the specification:

More preferably, R<sup>4</sup> is (C<sub>1</sub>-C<sub>8</sub>)alkyl, halo-substituted (C<sub>1</sub>-C<sub>8</sub>) alkyl (preferably, fluoro-substituted (C<sub>1</sub>-C<sub>8</sub>)alkyl, cyclopentyl, cyclohexyl, piperidin-1-yl, pyrrolidin-1-yl, or morpholin-1-yl.

and replace with the paragraph pursuant to §1.121(b)(1)(iii).
